

INTERNATIONAL SEARCHES

International centers and registries may request a search either electronically (EMDIS) or by email and fax.

The following information must be included in a request:
(the use of WMDA forms are encouraged)

- Patient name and ID
- Gender
- DOB
- Diagnosis and current disease status
- HLA typing (minimum HLA A, B low, DRB1 high)
- Invoice address

For CBU- (cord blood unit) searches patient weight must be included.

Diagnosis and disease status should be in accordance with recent EBMT recommendations.

All searches will be performed once, upon request. Tobias Registry do not repeat or monitoring received searches.
